#### STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. REID (for himself and Mr. ENSIGN):

S. 1257. A bill to require the Secretary of the Interior to conduct a theme study to identify sites and resources to commemorate and interpret the cold war; to the Committee on Energy and Natural Resources.

Mr. REID. Mr. President, the cold war was the longest war in United States history. Lasting 50 years, the cold war cost thousands of lives, trillions of dollars, changed the course of history, and left America the only superpower in the world. Because of the nuclear capabilities of our enemy it was the most dangerous conflict our country ever faced. The threat of mass destruction left a permanent mark on American life and politics. Those that won this war did so in obscurity. Those that gave their lives in the cold war have never been properly honored.

Today I introduce a bill that requires the Department of the Interior to conduct a study to identify sites and resources to commemorate heroes of the cold war and to interpret the cold war for future generations. My legislation directs the Secretary of the Interior to establish a "Cold War Advisory Committee" to oversee the inventory of cold war sites and resources for potential inclusion in the National Park System; as national historic landmarks; or other appropriate designations.

The Advisory Committee will work closely with State and local governments and local historical organizations. The committee's starting point will be a cold war study completed by the Secretary of Defense under the 1991 Defense Appropriations Act. Obvious cold war sites of significance include: Intercontinental ballistic missiles; flight training centers; communications and command centers, such as

Cheyenne Mountain, Colorado; nuclear weapons test sites, such as the Nevada test site, and strategic and tactical resources.

Perhaps no other State in the Union has played a more significant role than Nevada in winning the cold war. The Nevada Test Site is a high-technology engineering marvel where the United States developed, tested, and perfected a nuclear deterrent which is the cornerstone of America's security and leadership among Nations. The Naval Air Station at Fallon is the Navy's premiere tactical air warfare training facility. The Air Warfare Center at Nellis Air Force Base has the largest training range in the United States to ensure that America's pilots will prevail in any armed conflict.

The Advisory Committee established under this legislation will develop an interpretive handbook on the cold war to tell the story of the cold war and its heroes.

I'd like to take a moment to relate a story of one group of cold war heroes.

On a snowy evening in November 17, 1955, a United States Air Force C-54 crashed near the summit of Mount Charleston in central Nevada. The doomed flight was carrying 15 scientific and technical personnel to secret Area 51 where the U-2 reconnaissance plane, of Francis Powers fame, was being developed under tight security. The men aboard the ill-fated C-54 helped build the plane which critics said could never be built. The critics were wrong, the U-2 is a vital part of our reconnaissance force to this day. The secrecy of the mission was so great that the families of the men who perished on Mount Charleston only recently learned about the true circumstances of the crash that took the lives of their loved ones. My legislation will provide \$300,000 to identify historic landmarks like the crash at Mount Charleston. I'd like to thank Mr. Steve Ririe of Las Vegas who brought to light the events surrounding the death of the fourteen men who perished on Mount Charleston nearly a half century ago, and for the efforts of State Senator Rawson who shepherded a resolution through the Nevada legislature to commemorate these heroes.

A grateful nation owes its gratitude to the "Silent Heroes of the Cold War." I urge my colleagues to support this long overdue tribute to the contribution and sacrifice of those cold war heroes for the cause of freedom.
